€ CL100[™] LaviLock

The **CL100 LaviLock** is a disabled access lockset designed with ease of use and longevity of service in mind. The brass and stainless steel working components ensure reliability as well as resisting the corrosive outdoor environment they are often installed into.*

The LaviLock features easy to read **"Vacant** / In Use" lettering and 'fail safe' Exit Free functionality. It is driven by a lever operated mechanism that is easy to grasp with one hand, ensuring the lock meets ADA Accessibility Guidelines for Buildings and Facilities.

'Vacant/In Use' indicator plate with Emergency Release on outside door face.

Easy to use 'Unlock/Lock' lever on inside door face.

- **T** (310) 890 8034 (310) 890 6970
- **F** (310) 769 5824
- E info@cavilock.com

The LaviLock is supplied as a complete set including:

- Lever Handles
- Stainless Steel Indication Plates
- Slide Locking Buttons including
 - Emergency Release
- CL100 Mortise Lock Case

IMPORTANT: Hardware must be mounted by installers no higher than 48 in (1220 mm) above the finished floor and the clear width of the door opening must be a minimum of 32 inches and a maximum of 48 inches for the accessible door passage to meet ADA guidelines.

Handing

When standing looking into the pocket, if the locking snib is on your *left hand* side then the **LaviLock** is a Left Hand lock. When standing looking into the pocket, if the locking snib is on your *right hand* side then the **LaviLock** is a Right Hand lock.

EF = Exit Free - Even when in locked position the handle on the **inside** remains unlocked.

CL100 Mortise Lock Features

The **CL100 Mortise Lock** is a versatile mortise that has many different internal and external hardware options. The internal components have been built to resist corrosion, making it suitable for both internal and external use in commercial, architectural and residential applications.

- Suitable for pocket doors and surface sliding doors
- Easy to operate
- Corrosion resistant
- For use with timber or aluminum doors
